BLAIRMORE TAKES A LEAP INTO THE TIDE OF WESTERN PROGRESS

Blairmore is on the crest of a wave of prosperity. New buildings are being erected, hotels and business blocks are being enlarged, new industries are healing this way and much is being done to make the town one of the most important in this province.

The latest building to be decided upon is one which R. M. Brisco is having erected on Victoria street, between Sixth and Seventh avenues. The building will be over eighty feet long and twenty-five feet wide. The entire structure will be of brick and cement blocks. The ground floor will be used as a dry goods and general furnishing store while the upstairs will be made into offices or living apartments.

E. Morino and Frayer & Sinclair have secured the contracts

for the entire work in connection with the erection and completion of this new building and work has already begun thereon.

Several of the directors of the Keystone Cement Company are in town today and are looking over the property which they intend to add to their holdings in this vicinity. Although work on their proposed buildings has not yet been started, it is very probable that a large number of men will be thus engaged by the middle of July.

Other industries are leading this way about which we shall have some definite information to give our readers in the course of the next two or three weeks. But there is still room for many more enterprises in The Pass. Let us keep the present interest of our town at

high tide and awaken other enterprises that will add to its growth and prosperity. We already see what new and live enterprises will do for us.

There are many live industries, especially in the East, that are seeking western locations, and if our townsfolk were really active, these enterprises might be looked into and if found meritorious, sufficient inducement given for them to locate in our borders. This is what will give growth and prosperity, new life and new interest, make our town the place she was destined to be, the first, the best, the most notable of all the places round about her. The Board of Trade should be more active; every business man of our town should awaken out of slumber and begin thinking on this subject with speedy action in view.

BLAIRMORE SCHOOL BOARD MEETS-SCHOOL HAS HAD VERY SUCCESSFUL TERM

(Unavoidably crowded out last week.)

A meeting of the Blairmore school board was held in W. A. Beebe's office on Tuesday evening. There were present: W. A. Beebe, chairman; Rev. J. F. Hunter, A. A. Sparks and S. Bonin.

The plans and specifications for the proposed addition to the present school building were carefully gone over after which it was moved by Mr. Hunter that the said plans and specifications be accepted and that tenders for the erection of two additional rooms and the painting of same be advertised for immediately. Carried.

The board accepted the applications of Misses Cogland, Fulton and Darrach to remain on the teaching staff. It was regretted by all present that Miss O'Brien, the principal, and Mrs. Page, one of the teachers in the primary department had decided to vacate their positions at the termination of the present term. The school under the principalship of Miss O'Brien was in a much better condition and the scholars were making far greater progress than at any other time in its history. The teachers had not been backward in performing their duty. Our town has one thing to which she is justly proud of and to which she largely owes her good name, the influence of our schools. This has been brought about by the harmony of four elements, viz: the school board, the patrons, the scholars and the teachers.

It was found necessary to elect a new principal. The application of Mr. J. W. Verge was fully considered after which it was moved by Mr. Sparks and seconded by Mr. Bonin that Mr. Verge be the new principal of the Blairmore public school. Carried.

It is the part of wisdom to keep our school up to the very highest point of excellency and with Mr. Verge as the new principal of the school a very valuable adjunct will be made thereto.

Our schools are doing nobly and there is no more efficient aid to morality, honesty, sobriety and good citizenship than well conducted public schools.

L. O. A.

Wellington Lodge, No. 2224, Loyal Orange Association, will hold their annual church parade on Sunday, July 7th. The members and visiting brethren will meet in their hall on Victoria street, at 2:30 p.m.; shortly after which they will form in procession and march to the Baptist church where P. M. Rev. J. F. Hunter will deliver an oration.

The local lodge intend celebrating the "Glorious 12th" at Pincher Creek.

An Explosion

On Friday evening last, just after several hundred people had congregated around MacKenzie Squares here the Chapman Amusement Company were trying to entertain the people, the balloon exploded and a mighty stampede quickly followed, but fortunately no serious damage outside of the burning of the balloon was caused. This accident occurred when the balloon was about ready for an ascension. Prof. Mills was just about to give the signal to rise when a loud noise was heard and the whole "gas bag" was a mass of flames.

Catholic Church

REV. FR. A. SAMMUT, Rector

Notice is hereby given that until further orders church services will be held in these Missions as follows:

(a) In Bellevue and in Hillcrest, every first Sunday of each month, respectively, at 11 a.m. Sunday School will be imparted where service takes place at 2:30 p.m.
(b) In Frank, every second and fifth Sunday at 11 a.m. Sunday School in Blairmore at 3 p.m.
(c) In Passburg, every third Sunday at 11 a.m. Sunday School at 2:30 p.m.
(d) In Blairmore at 10 a.m. and in Frank at 11:15 a.m. every fourth Sunday. Sunday school in Blairmore at the usual hour.

Taking into consideration the seven missions Rev. Fr. Sammut has to attend to it is more than fair for him to follow this program as expressly approved by His Lordship, Mgr. E. Legal.

H. R. H., the Prince of Wales, because of age on Sunday last.

COLEMAN HAS EXCITING EXPERIENCE-OTHER ITEMS OF INTEREST FROM THAT BURG

Service in St. Albans church every Sunday at 7 p.m.

The public school will close on Friday for the summer holidays.

N. A. Macaulay returned from a short trip to Pincher Creek on Friday last.

The Institutional church gave the children a social evening on Friday. A good time was had.

MARRIED-At St. Albans church by Rev. D. J. Watkins-Jones, rector, on Saturday last, William Prescott of Frank to Miss Nellie Birchall, of Lancashire, England.

Messrs. Jennings and Lockhart, principal and vice-principal respectively of the public school here, have placed their resignation in the hands of the school board and will leave town at the close of this term.

Manager Adam Patterson, of the new Hotel Port Mann, opened his fine house of thirty-four rooms with a house warming on Saturday. The hotel has no licence at present but the owners will make application early in September.-B.C. Sunset.

A rather exciting and interesting incident occurred here on Monday evening just as the darkness was overshadowing the earth. A team belonging to A. E. Knowles, blacksmith, furniture and hardware dealer, tinsmith, plumber, wagon maker, etc., became tired of standing and seemed anxious to try the new rig to which they were attached. So they ran from the west end of Slav Town along by the park and bolted down church street to Central avenue, passed close by one of the hotels where many persons left their half-empty glasses on the counter for the contents to fizz while they themselves made a hasty exit to see what big event was in progress outside. During all this racket at the bar, a new comer was seated complacently on the corner looking heavenward. This visitor was apparently an astronomer with marine experiences and with an astrolobe clasped tightly in his hands was waiting for the stars to make their

appearance; but cruel fate, the stars came too early; he was struck by the passing vehicle and hurled to the ground, head first, when stars most painful to behold met his vision but he soon recovered. The team dashed madly down to the C.P.R. depot where they turned eastward and were invading the principal residential section when caught and taken home. The next morn comes to town on Saturday of this week.

"SOME HAV' MEAT, AND CANNA EAT"

So Bobby Burns truly describes the rich, but still poor, dyspeptics. But their case is not all so desperate as when Burns wrote. For the man who has the food now can eat without suffering for it, if he just follows the meal with a Na-Druc-Dyspeptia Tablet.

These remarkable tablets banish the troubles of the chronic dyspeptic—the man who is bilious—the sufferer from heartburn, gas on the stomach or occasional indigestion. A dose can eat hearty meals of wholesome food—and digest them, too—if you take Na-Druc-Dyspeptia Tablets.

Compounded by expert chemists, after probably the best formula known to medical science, they are quick and certain in their action, giving prompt relief from all forms of stomach trouble, toning-up and strengthening the digestive organs and bringing about permanent cures.

A man is stronger than his stomach.

Get your best work by taking Na-Druc-Dyspeptia Tablets after each of your druggists', National Drug and Chemical Co. of Canada, Limited, Montreal.

Saving the Country.

During an election in New York a bunch of gluttonous repeaters marched into an outside polling place.

"What name?" inquired the election clerk of the leader, who was re-elected and freed, and had a black eye. "The voter glanced down at a slip of paper in his hand."

"Isadore Nimmick Post," he said.

"That's not your real name and you know it," said a suspicious challenger for a reform ticket.

"Is it my name?" said the repeater. "I'm going to vote under it—see?"

"From down the line came a voice."

"Don't let any bluff you, Casey. Sotfully your name is Mendelheim!"

"Satan's Evening."

Slightly Different.

Ella—Did you ever read Longfellow's "Bridge?"

Stella—No. Is his name different from the one we play—Lodge.

"Do you know, I heard that your family doctor is a disunimater."

"No, such thing. He's an allopath,"—Baltimore American.

A French chemist claims to have devised a simple but accurate method of measuring the surface of a human being.

BLOOD IS LIKE WATER

When Lips Are Pallid and the Gums Lose Their Color.

You Can Make the Blood Rich and Red by Using

DR. CHASE'S

NERVE FOOD

If you find yourself easily tired, lacking in vigor and energy, unable to properly digest the food you eat and generally out of sorts, look in the lips, gums and eyelids. If color is lacking you may have some anemic condition where your blood is thin, weak and watery.

It would be a mistake, under these circumstances, to use purging medicines, what you need is more blood—richer blood—and you can increase the amount of rich, red blood in the body by using Dr. Chase's Nerve Food.

Not in any miraculous way does this treatment work, but just as naturally as do any of the laws of nature. It supplies to the body the elements which go to the formation of new, rich blood. These are found in condensed and easily assimilated form in Dr. Chase's Nerve Food, and there fore do not bother even the weakest stomach.

It will take a little patience and perseverance to thoroughly restore the system, but by noting your increase of weight and the return of color to your faded complexion you will be convinced that the lost vigor and vitality is being restored to you.

Dr. Chase's Nerve Food, 50c a box, 6 for \$2.50, at all dealers or Edman, Sons, Ltd., Co., Limited, Toronto.

Strategy.

"And why are you writing 'person' on that envelope?"

"I want the man who reads the letter."—Cleveland Plain Dealer.

Keep Minard's Liniment in the house.

Which Do You See?

The pessimist sees the thorns on the roses; the optimist sees the roses on the thorns.—Judge.

CANADIAN ENTERPRISE

Canadian Pacific Railway Co. to Run Observation Cars on Austrian State Railways.

The announcement that the Canadian Pacific Railway Co. will this summer begin to run a series of Observation Car Services on the Austrian State Railways through the Tyrol, marks an epoch in the growth of the importance of Canada in the world. Under a contract with the Austrian State Railways, the Canadian Pacific has arranged to build several observation cars in Austria on Canadian Pacific plans. The design is that of Mr. Vaughan, head of the C. P. R. Angus shops at Montreal, who has made a personal visit to Austria to study local conditions. They will differ slightly from the type as used in Canada, and each car will have platforms at both ends. The cars will be the longest four-axle cars in Europe. They will have a very spacious interior and will seat thirty passengers. There will be accommodation for a typist, whose services will be at the disposal of the passengers, and an up-to-date library with all the latest magazines, just as on the C. P. R. transcontinental trains, and the amount of the features of the cars.

Both Austria and the Canadian Pacific Railway will benefit from the consolidation of the new scheme. The attention of vast numbers of these will run between Zurich and Innsbruck over the Arlberg route via Landeck. The second will be between Innsbruck and Vienna via Zell am See and Salzburg. The third will be from Salzburg to Trieste over the Tauern and Karawanken Railway by way of Badgastein, Villach, Veldes and the Valley of the Isar. This last is a new route only recently completed by the Austrian Government, which has spent immense sums of money to provide a short cut from the north to Trieste, its greatest seaport.

The Austrian State Railway is particularly well favored in the country. It feeds an regards scenery, and seen as it will be under the most favorable auspices in these new C. P. R. observation cars, the beauty of the land will be the most interesting part of any European tour.

Worms in children. If they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the child from these distressing afflictions.

A Frugal Method.

An Irishman just landed, secured a position as fireman in a large factory. The chief engineer inquired of him how he got the position.

"To run our engine we require 160 pounds of steam; you can always tell how much steam you have by looking at this gauge."

Shortly afterwards the engineer noticed that the engine was slowing up. Calling to the boiler room, he inquired of the fireman how much steam he had on.

"Oh, I have about forty pounds, sir," answered the new fireman.

"Why, man, I told you we had to have 160 pounds to run."

"Niver mind that," was the cheerful answer. "The engine will be satisfied when that is gone. Or'll have more for ya."—Everybody.

How to Punish Puss.

It isn't a very nice task to punish pussy if you're fond of her, but there are times when you have to punish her. This is how to do it, according to Mr. Louis Vaux, the great authority on the subject.

In the first place, don't actually strike the cat. A blow merely maddens her more. The most sensitive part is struck—particularly if the cat is old—it is likely to apply at the strike.

When pussy does anything wrong, frighten the wrongdoer by striking a lighted match at the cat's head. He is sensitive to sounds, and will connect this new noise with what it does. It feels more intense than most animals; hence its supposed sagacity. Cats are highly electrical, and it is very good to have one near a user's shoulders or knees.

The best food for puss is raw meat, chopped up and only one meal a day should be given. Most of the mistakes which are made in training cats arise from an absence of knowledge of the cat's character and constitution.

Said one man on the street, "speaking to a friend, 'Well, money talks.'"

"Maybe it does," replied the other, "but all it ever said to me was 'good'."—Baltimore American.

"Then the wedding was not altogether a success?"

"No, the groom's mother cried loudly that the bride's mother. It was considered very poor form."—Louisville Courier-Journal.

"Confound it!" snorted the young man in the corner, as he saw a girl walking with that London girl again. She's too literary for me."

What was that?" asked the other.

"Why, she even said the hills had 'intellectual bones'."

Why They Wear It.

"You needn't make fun of long-haired actors."

"What has anybody got to say for them?"

"You forget, don't you that it was not until Samson got long hair that he was able to bring down the house."—Baltimore American.

The Real Test.

Diogenes was searching for an honest man.

"Find a suburbanite who will tell you his real opinion of country life in winter," he advised.

Hereafter he departed to apply the greatest test of all.—Harper's Bazar.

Wasteful Use of Coal.

The latest estimate of the coal supply in England places the date of its exhaustion at 175 years hence. While this is a long period measured by the average life of a man, it does not look big compared to the history of that country. Our own coal supply is so large and the exportation of coal in the mind of the layman—of the non-technical discoverer of vast deposits of fuel, make it practically impossible for our own people to seriously consider the exhaustion of our own coal fields.

The present method of generating power for stationary engines is absurd and extravagant as to at least 75 per cent. of all the power used in this country. We mine coal, we ship it, and then haul it to our plant; we shovel in from the wagon, we shovel again under the boilers; we fill our cities with smoke until they resemble a foundry on casting day; and then must shovel ash into wagons, cart these through our streets and shovels handle the refuse and shovels again. As pointed out in these papers two years ago, an engine should come up from mine to flow by gravity under the boilers of an engine, and the power and heat should be utilized in a final destination, not on coal cars, but on the ground.

We pity the crude methods of our forefathers, we boast of our present-day achievements, and Americans (or two) here and many of the things we do will appear inexplicable and silly.—Popular Mechanics Magazine.

Benefits of Butter Milk.

This much despised by-product of the dairy seems to be coming to its own. Of late years it has been coming to the notice of towns and a big demand for butter milk as a beverage. It can now be had at first-class hotels. Then many householders use butter milk whenever they can get it.

So great has grown the demand that the supply is always below requirements. To meet this demand producers are devising ways and means for increasing the supply. True as yet, the farmer has not realized its true value and the supply of butter milk on the average farm still finds its way to the hog trough, while people in towns and cities cannot get it they require.

The increased demand has come about largely because of recent scientific investigations which show butter milk to be of great value in keeping the human system in good working order. It is especially good for intestinal disorders.

A physician recently discovered in the south of Russia a people who lived almost entirely on a diet of butter milk or a milk product having the same properties as butter milk. He found also that these people lived to a good old age. This is a very interesting investigation and the production of artificial butter milk.

"What is the trouble, wifey?"

"Nothing."

"Yes, there is. What are you crying about, something that happened or something that happened in a novel?"—Kansas City Journal.

Posters—"I wrote that poem, sir, to keep the wolf from the door."

Editor—"Well then, why didn't you nail it on the door?"

The latest novelty in watches is a miniature timepiece, the back and front of which are formed of two sovereigns. . . .

"You say I must ride horseback," said the man of quiet habits. "Yes," replied the physician; otherwise I can't answer for your life." "But can you answer for my life, if I try to?"

Witness Not Sure.

Out of the House Napoleon (Champanne), M. P. P. of the House of Commons, laughed at himself as he made deals of fun of others. For example, he deals with a story concerning his own weakness—a "cross" of the eyes. Mr. Champanne is a prominent figure at the strike.

Outing a French witness in one of the courts at the capital, where English law is applied through an interpreter, so that the court could understand question and answer. Mr. Champanne says: "I spoke to him in French and he said: 'Will you tell me why you do not answer that question?'"

"Are you speaking to me?" asked the man at last.

"Why certainly I'm speaking to you."

"Oh," said the fellow; "I thought you were talking to somebody at the other side of the room."

A Mis-Directed Appeal.

The late Sir John Carling was one of London's most popular citizens, and although his business was not successful, he was a very generous man. He was in high esteem for his personal qualities. On the occasion of a testimonial meeting in which was then called Queen's "avenue" Church, Sir John was asked to take the chair. One of the speakers was a man who spoke strongly against the sale of "fire-water" to his people, and in concluding his remarks in picturesque language. He concluded by calling upon the chair-man and all other Chair-men to put down the liquor traffic with a firm hand. Sir John smiled graciously on the speaker, but the latter did not stop to appreciate the irony of the situation.—Saturday Night.

Gold Paper Weight.

Chairman Engelhardt of the Temiskaming and Northern Ontario Railway Commission has a gold nugget paperweight which he considers to be one of the finest samples of gold ever taken from Northern Ontario. It was taken from the Dume Mine and has just been presented to the commission by the superintendent.

High Finance.

A New York broker was praising Charles W. Morse's ability as a money raiser.

"Tell me a story about Morse," he chuckled. Morse went to a millionaire day and said:

"I have three millions. I have three millions for that new deal of mine."

"Well, I've only got two millions in ready money today."

"Then," said Morse, "Well, hand it over—then you owe me the other million.—Detroit Free Press.

Notes From Burmis

Ben Reeves was in Coleman this week on a business trip.

E. Diery of Coleman was a business visitor to Burmis this week.

A. S. Lathbury has taken over the management of the pool room here.

J. Roddick and T. Richardson have left town and have gone to the "Pittsburg of Canada" to work.

Mrs. E. T. Fitzsimmons was a guest at a party given at the home of Mrs. J. N. Rowell at Passburg on the 20th.

Quite a number of Burmis people took in the football game between Hillcrest and Bellevue, at Bellevue, on the 19th.

George Hill, the stable boss at Burmis, visited Passburg and attended the sale of live stock at the Passburg Livery barn last week.

The Hillcrest football team were quite a cheery bunch a couple of weeks ago, but believe us Burmis took the wind out of their sails.

The new clothes for the Burmis football team have arrived and the boys look neat and trim in their white shirts and blue pants. One of the more ardent supporters wished to know if they had the same color of shirt in red. Oh you Jack.

R. S. Sprick, who recently arrived here from England, is about to leave having accepted an appointment in Vancouver. He has announced his intention of leaving his golf clubs with the boys. They do not know anything about the game, but still they have the goods, and that is something.

Last week one of the boys was working the "guitar in his room" when suddenly it ran upon something hard. With great care the coal was removed from around this object and it was found to be a small piece of rock. The Order of Guzzaks have appointed a committee to investigate so strange an occurrence. We have heard of rock occurring in other coal deposits but this is a new one on Burmis.

While returning home from the football game at Hillcrest, on the 19th, Uncle had quite an exciting

time with his "Noble Blue". When coming down the hill at Police Flat, Blue became quite unmanageable and made a bee line over the hill and into the bush. Uncle had quite a time getting Blue disentangled but eventually got started on his homeward way, none the worse for the experience. Subsequent auditing, however, discovered the loss of a battle of the "Pride of Alberta."

A rather amusing incident occurred at Hillcrest and Burmis football match last week. Hillcrest right wing squared the ball straight across the Burmis goal mouth and four of the Hillcrest players in line all missed it. Sloan, who was playing for Burmis, immediately rushed up to one of these players and offered his hand. They shook hands and it was not until this had been accomplished that the Hillcrest player realized that the laugh was on him. His present remark is not for publication.

We might mention that some unscrupulous individual turned "Uncle's" "Blue" loose from the barn through the week which necessitated "Uncle" having to get a bunch of rough riders to round "Blue" up. It is kind of work causing "Uncle" some uneasiness as he has "Blue" in full training for the Guzzak stakes, a nine furlong race to be run in Burmis next month. All the boys are rather kindly disposed towards "Blue", so there is no reason for "Uncle" getting a "bee in his bonnet."

At a regular meeting of the Order of Guzzaks, held this week the events of the week were discussed in detail. "Uncle Billy" was secured for allowing "Blue" to haul booze. The Hillcrest correspondent of a Lethbridge daily was censured for writing up untrue reports on the football games, his nomination of eight stars in the losing team and only one star in the winning team was greeted with derisive laughter. Hillcrest so-called supporters are not to be given the glad hand for turning down their own team and hucking Burmis.

A Big Day For

St. Alban's Church

The Women's Auxiliary of St. Alban's church, at Coleman, held a sale of work, a supper and an entertainment all on one day—Wednesday of last week. The whole affair was held in the open house and was a great success in every point of view. All of the needle work was disposed of; the supper and entertainment were well patronized, and after defraying heavy expenses, it resulted in a gain of nearly \$100.

The members of the Women's Auxiliary desire to publicly thank all for their generous patronage.

The proceeds of this big day's work will go to the building fund for a Parish hall and Men's Institute.

The Stall holders were: Fancy articles, etc., Mrs. Disney and Mrs. Shugley; Candy and chocolate, Mrs. Buchanan and Mrs. Snow; Ice cream, the Misses Davis, Disney and Pengau; Refreshments, 1st table, Mrs. Graham and Mrs. Briceford; 2nd table, Mrs. Hadfield and Mrs. Muir; 3rd table, Mrs. Neil and Mrs. Cox; several other members of the Women's Auxiliary assisted. Mr. John Hadfield acted as carver.

The Boys' Scouts and members of the Girl's Missionary class, were busy disposing of contents of the brain tub and of supper and concert tickets.

After everybody had partaken quite freely of the delectable edibles, the tables were cleared away and a programme, consisting of the following items, was disposed of: Piano-forte solo, Mr. Edwards; recitation, "Song of Camp," Miss Doherty; song, "Maid of the Mill," Mr. Leyshon; violin solo, "Il Trovatore," Miss Disney; song, "Alone on the raft," Mrs. Leyshon; humorous recitation, Miss Snow; song, "Sing Me to Sleep," Miss Doherty; song, "The Rolling Deep," Mr. Hayman.

The musical programme was followed by moving pictures. The proceedings

ended with a dance, the accompanists being Mrs. Disney and Mr. Edwards.

There is no real need of anyone being troubled with constipation. Chamberlain's Tablets will cause an agreeable movement of the bowels without any unpleasant effect. Give them a trial. For sale by all dealers.

William H. Taft was re-nominated by the Republican party on Saturday night as president of the United States. Theodore Roosevelt has formed a new party and has been nominated as the presidential candidate by the Republican Progressive party. President Taft received 561 of the 1,078 votes in the convention.

Each age of our lives has its joys. Old people should be happy, and they will be if Chamberlain's Tablets are taken to strengthen the digestion and keep the bowels regular. These tablets are mild and gentle in their action and especially suitable for people of middle age and older. For sale by all dealers.

A RARE OPPORTUNITY FOR LIVE INVESTORS

Lake City

Is the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already topped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous fords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntman who desires to outlive the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold, quartz, coal, iron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yachts will soon glide over the surface of this beautiful lake.

But a few weeks ago, lots were placed on the market, and the agents have had their hands full attending to purchasers. Prices run from \$150 up. For further particulars apply to the agents:

CHECKERS' UPLIFT

He Gets Out of Jail and Into Graft.

A GROCER GIVES HIM A JOB.

But He Tires of Watering Malasses and Adulterating Chicken Feed Without Getting a Share of the Profits. Search For an Honest Man.

By M. QUAD.

[Copyright, 1912, by the Associated Literary Press.]

It was in jail. I was there not for lifting a hen off her perch at midnight, but because the farmer caught me in the act.

The hobo has his aboriginal notions, the same as a lawyer or doctor. The farmer had lost chickens before and had set a trap at the henhouse door. I was thinking of the sad fate of great geese when my foot went into that trap and was held fast.

There was nothing to do but wait for the farmer to come out and discuss the matter with me. He took his time

on that the country wants an example made of some one. If you are sent to jail for intending to steal a hen it will cover up some congressman's grabbing for a thousand acres of government land. See the logic?

"How far is it to town?" I asked when we were ready to go.

"Three miles and a half."

"And what mileage are you allowed for this trip?"

"Five cents."

"How many miles will you put in for on this trip?"

"But won't that be grafting on the country?"

"Sure, Mike, but am I in business for my health?"

"How is it that I must go to jail for intending to steal a hen and you can graft and keep out of it?" I asked.

"All in a twist of the wrist, hobo. Better learn the trick while you are in the coop."

The Jailor's Wife.

I was arraigned before a justice. He was miffed because I pleaded guilty. It cost his fees down more than half. I was the only prisoner in the jail, but I understood that the jailer was charging for meals for three customers. One of my imprisonment his wife borrowed \$20 from me, my sole capital, saying that she would return it next day, but the same has not come back to me yet. It was a nice little graft on the side.

Just before my ten days were up a philanthropist called at the jail. He had been in the grocery business for years and had made so much money that his conscience was pricking him. He was feeling it a duty to uplift some fellow man, and he thought to practice on me.

"The good man was not satisfied, however, until I had told him I never had earned an honest shilling and that my robberies, thefts and burglaries were too numerous to be remembered. Then he consented to uplift me, but I was warned a dozen times over that the slightest dishonesty on my part would open the prison gates every wide to me."

I was generation in the grocery business by being downgraded. I was put down cellar to work, as I could not at first be treated at the cash register. I drove molasses for three customers and was told to make a gallon of three pints. It was the same with kerosene oil.

The codfish was wet down every morning. The vinegar was watered once in two days.

There was a barrel of whisky on tap in my department, and every time I drew a quart I poured a pint of water in the bottle.

I ended up four from two XX hanks into three XXX barrels.

I ground up cornmeal with the oats for chicken feed and the butter with the fat.

Checkers Strikes.

There were many other things I did to help uplift myself, and the greater philanthropist was pleased with me. He said I would surely make an honest, respectable member of the community if I kept on for a few years. My answer was that I was going out of the game.

"You are being uplifted," he exclaimed in astonishment.

"I know, but you are getting all the profits from it."

"But a man of strict integrity!"

"Cut it out and let's watch 'em."

"Whack! Whack?" he mused.

"Then call it dirty. What per cent do I get?"

And that philanthropist reared up in holy horror and had the constable chase me far, far away. As we stopped to breathe I asked the officer if he could tell me the abiding place of a strictly honest man, and he thought for a moment and then replied:

"You are just three days too late. There was an honest man in this county—so honest that after paying his debts he had to go to the poorhouse."

"They made him look, but three days ago they caught him adding water to the soap so as to have more for himself. And I hear he's been hounded."

I sought the railroad tracks again, but I hadn't gone five miles when I came upon a farmer stealing tires from a pile. His wagon was about loaded when I came up.

"Buy 'em!" I asked as I halted.

"I've just taken a few to make sails for the navy at Portsmouth dockyard yesterday, subject to the condition that they should be broken up in the United Kingdom within a specified time. The destroyers which were built in 1906—realized prices varying from \$5,000 to \$6,000."

An Optimist Required.

"Yes, I can give your friend literary work. He is a good man."

"But hold on, he is an optimist or a pessimist?"

"What difference does that make?"

"What's a deal of difference. I can't use a pessimist. I want to edit a spring seed catalogue."—Washington Herald.

Mother—You'll catch it when your father comes home.

Billy—who has been attaching an old kettle to the cat's tail "Ketch that!" said the cat now! But I don care. I've had the measles an chick-en-pox an mumps, too!"

his blind pocket and lay on the ground. I managed to get hold of it, and then, wishing him so long, I walked away full of integrity up to the chin. There was \$15 in the wallet, and I grafted it.

Happenings in and Around Bellevue

J.S. Murray is visiting in the camp.

J. B. Rudd went up to Macleod on Monday night.

Mr. and Mrs. Quigg left the camp for Fernie on Friday.

Robt. Connolly went up to Macleod on Monday night.

E. W. Christie is working at the Sanatorium on the new stable.

Bellevue defeated Hillcrest by a score of 1 to 0, at football, on Monday evening.

Mr. and Mrs. Hallworth left for their new field of labor at the Royal Collieries on Friday.

Frank Padgett has been transferred to High River by the C.P.R. He left for there on Tuesday.

Joe Robinson has returned after an extended trip to England. Joe is looking fine and everyone is glad to see him back.

The Bellevue band played an open air concert on Sunday night which was appreciated by a large number of music lovers.

MARRIED—In Bellevue on June 12th, by the Rev. W. H. Irwin, Mr. Hiram Jasker to Miss Emily Elvinen, both of Bellevue.

A number of Bellevue people took part in the surprise party given to the Rev. W. T. Young by the people of Frank on Thursday night.

Bellevue football team added another victory to their list on Saturday by defeating Hosmer on their own grid-iron by a score of three to two.

Will Chappell's "Queen of the Woods" started off another first place in the pony races at Pincher Creek last week. She is now trying her luck at the Calgary turf.

Walter Scott left for Winnipeg on Saturday where he will meet his matrimonial fate. He is expected to return in a few days accompanied by Mrs. Scott. We wish Walter every success.

Mr. Irwin is preaching two sermons upon the "Great Commandment." Last Sunday evening his subject was "Loving God." Next Sunday the subject will be "Loving Men." The services are short and bright in keeping with the warm evenings.

A strange robbery case stirred up the interest of Bellevue last week. One evening, tired from an all day tramp, a hawker loaded down with grips and packs, accompanied at the Southern Hotel for accommodation. He was shown to a room for which he was charged in advance, and in leaving the room his pilot relieved him of a case of jewelry in addition to the price of the room. On missing his case the hawker reported his loss and it was discovered that his pilot had no connection whatever with the hotel and as a result a man named Ross put under arrest. A diligent search by the police failed to reveal the whereabouts of the missing case. Ross was committed for thirty days on the summary charge of obtaining money under false pretences, and will be tried at Macleod on the theft charge. A strange development of the case occurred just as the train was pulling out of the station with the prisoner, some mysterious person whose identity has never been disclosed, deposited the missing case of jewelry in a rear passage of the hotel in which the theft took place. The case was minus a few articles but was otherwise intact. There are several charges of perjury pending in connection with the case.

When your child has whooping cough be careful to keep the cough loose and expectoration easy by giving Chamberlain's Cough Remedy as may be required. This remedy will also liquify the tough mucus and make it easier to expectorate. It has been used successfully in many epidemics and is safe and sure. For sale by all dealers.

The "Flirting Princess" will appear at the Blairmore opera house on Thursday evening next.

Presentation to Rev. and Mrs. W. T. Young

After a carefully laid plan a number of young as well as older folks met at Mr. Blais' store at Frank on Thursday evening and at 8.45 o'clock a party consisting of thirty people proceeded to the home of Rev. and Mrs. W. T. Young where the host and hostesses were taken by great surprise. The object of this occasion was to present to the newly married couple an address and purse and to have a social gathering at the home recently formed.

Immediately on arrival at the parsonage, Mr. and Mrs. Young were the recipients of numerous congratulations. This was followed with merry jest and cheerful conversation, after which the following address was read by Mr. W. J. McGowan and a purse of \$100 was given by the young couple by Mr. A. T. Blais:

"To Rev. and Mrs. W. T. Young, Dear Friends,—We are gathered here this evening for the purpose of wishing you a happy and prosperous wedded life. May your life together be one long dream of bliss and your path strewn with roses."

"Mr. Young, we highly appreciate the noble work that you have been the means of doing since your coming to this town, and we are extremely glad that you have decided to remain and cast your leavening influence for good in this community for another year. We know that you have had to surmount great obstacles in accomplishing the splendid success which has already attended your efforts in this town and too much praise cannot be given you for the manner in which you have labored amongst us."

"Mrs. Young, we welcome you to our town and we hope that your stay will be a pleasant one and that in future years you will be able to look back on many happy moments spent here. You are almost a stranger to us, but judging from what your husband is worthy of, you are a good and noble woman."

"We ask you to accept this purse as a small token of our esteem and unswerving fidelity to you and we trust that your stay here will be marked with great success."

After the reading of the address and the presentation, Mr. Young on behalf of himself and his good lady with well chosen words, thanked those present for their mark of esteem and encouragement, and promised that in the days before him he would do his utmost to further the cause of right in the field which he had learned to love and in which he had become deeply interested.

An elegant lunch was served and after again expressing sincere wishes for the happiness and prosperity of the pastor and his better half the party broke up and repaired to their respective homes.

Exams. at Blairmore

The annual departmental examinations are being held in the public school this week. D. S. Wilbourn, B.A., of Pincher Creek, is presiding examiner. The following candidates are writing at this point:

GRADE VII. (Old Standard V.) Blairmore—Annie McLeod, Christina McLeod, Jennie Greenham, Frank Edwin Ernest, Blais, Alva E. Blais, Janet N. Thompson, Jno. Edgar Thomas, Robt. C. Wilcox, Laura Richardson.

Lille—Elizabeth Maud Williams, Harold E. Keith, Alphonse Fabro.

GRADE IX. Lille—Bloduen Evans, Vivian J. Keith.

Happenings in and Around Frank

Charlie Burrows has accepted the challenge issued by Sam Granger and will appear at the opera house, at Blairmore, in a 10-round bout, on July 20th.

The Dominion government have decided to send an engineer from Ottawa to take charge of the morning of the dwelling houses and business buildings from the danger zone to the property at the west end of town, which property adjoins Blairmore.

The Rocky Mountain Sanatorium gave another successful ball on Friday evening last. The Macleod orchestra rendered the music. Mr. Vinet, the manager of that institution, had everything nicely arranged for the occasion and a very enjoyable time was had.

The property owners of the town feel very grateful to Mr. Tompkins and other local officials of the Canadian Coal Consolidated for their action in getting their company to make such a liberal and genuine offer as to exchange suitable property in the new townsite for lots that at present are of no great value.

Rev. McPhail, one of the first preachers that ever appeared before a Presbyterian congregation in Frank, came to town on Monday and left for certain points on Wednesday. Since Mr. McPhail closed his ministry here about eight years ago many changes have taken place and he is very hopeful of Frank's future.

There will be preaching service in the Catholic church at Frank on Sunday morning next commencing at 11 o'clock when Rev. Fr. Sammut will preach on Socialism. This is a subject which should interest many of our townfolk and it is more than probable that the church will be taxed to its full capacity on that occasion.

H. D. MacKay, principal of the public school here, leaves on the "local" on Friday morning en route to his home at St. Stephen's, New Brunswick. Mr. MacKay has done excellent work since becoming principal of the local school, and the members of the board consider themselves very fortunate in having such an efficient teacher with all his modern ideas as principal.

Blairmore Brewery stock is the safest investment in Alberta.

A wharf on which there were upwards of 400 excursionists, collapsed near Buffalo on Sunday night and 200 persons were thrown into the Niagara river, 20 of whom were drowned.

The Blairmore Brewery will be turning out beer soon. Stock will then be advanced to \$15.00 per share.

New Westminster won another lacrosse victory on Saturday last when they defeated Vancouver by a score of 5 to 1.

A sprained ankle may as a rule be cured in from three to four days by applying Chamberlain's Liniment and observing the directions with each bottle. For sale by all dealers.

Baptist Services

You are invited to the services on Sunday at the Baptist church both morning and evening. If weather permits the evening service will be held in the grove across the corner from the church.

LIQUOR LICENSE ORDINANCE

APPLICATION FOR TRANSFER OF LIQUOR LICENSE

Application has been made by Joseph Gratton for consent to the transfer to himself of the license granted William Frank, in respect to the Southern Hotel, situate on Lots 2, 4 and 5, Block 8, Bellevue, Alberta.

Traverse this application will be considered by the Board of License Commissioners at a meeting to be held at Macleod on Friday, July 20, 1912, at 10 o'clock.

Dated at Edmonton this 28th day of June, 1912.

L. F. CLARKE, Deputy Attorney General.

NOTICE

NOTICE IS HEREBY GIVEN that the postponed Annual General Meeting of the Alberta Coal & Coke Company, Limited (Non-Personal Liability) will be held in the Windsor Hotel, in the Town of Lethbridge, Province of Alberta, on Monday, July 8th at the hour of ten o'clock A.M., for the purpose of receiving and considering the accounts and balance sheet, and the reports of the Directors and Auditors and for the election of Directors and for such other business as may be properly brought before the meeting.

DATED this 28th day of June, 1912.

By order, MINNIE LIEBRECHT, Secretary.

27-2
